Science and Research Development in India and Sri Lanka

Winter Term Course 2017 | January 2017

- Participated in a three-week winter term course abroad with 20 other students to study the development of science and technology in India and Sri Lanka.
- Traveled to Dubai, India (Delhi, Agra, Jaipur, Kolkata) and Sri Lanka (Colombo, Kandy, Bentota).
- Visited the Indian Institute of Technology Delhi (IIT) and the University of Peradeniya (Peradeniya, Sri Lanka) to learn about the national curriculums used to promote the development, implementation, and improvement of modern technology in each nation.

Management Fellows Honors Program

DePauw University | Aug 2015 – present

- Selective honors program at DePauw University integrating the study of business and entrepreneurship with the liberal arts through education and experience.
- Requirements consist of completion of a full-time, semester-long internship during the junior year. As well as required classes in economics, accounting, statistics, and ethics.

WORK EXPERIENCE

Product Analyst

DoubleMap, Inc | Indianapolis, IN | Jan 2018 - present

- Completed a full-time, seven-month long internship in accordance with the semester-long internship requirement for the DePauw Management Fellows Program.
- Served as a product analyst, acting as communication liaison between the development, operations and sales teams regarding software development projects.
- Monitored the software issue tracking system on a daily basis, produced technical design documents for software feature requests, implemented and performed web/mobile QA testing, managed outsourced developers, and collaborated with third-party companies for software integration projects. Built out a visual metric-tracking dashboard of the bug tracking database to monitor KPIs associated with our agile development processes.

Business Development and Strategic Planning Intern

Hendricks Regional Health | Danville, IN | June 2017 – Aug 2017

- Assisted with the creation and implementation of LEAN improvement projects with the goal of minimizing any inefficiencies in the Hendricks Regional Health system. Including creation of the Hendricks Daily Management System, Standard Work employee education, Value Stream Improvement Plans, and Continual Process Improvement.
- Conducted market research projects for multiple business development opportunities, planned and recorded the Hendricks Way associate greeting video for Marketing, assisted with the implementation of a new Security tracking system, supported Leadership Development with identifying professional development opportunities for further leadership growth in the Hendricks system, and shadowed multiple IT professionals.

Laboratory Teaching Assistant for Computer Science I Class

DePauw University | Feb 2017 – present

- Chosen by professors for position of trust and leadership from approximately 150 computer science students to explain basic topics for 30 introductory computer science students.
- Responsible for encouraging students to use creativity and critical thinking when problem solving by not simply providing answers, but instead by guiding students toward solutions.
